what to expect... first 4 weeks

1. Setup & On Boarding

Your dedicated Monsta will take you through a thorough onboarding process. We ask lots of questions about you so we can tailor the right ads. We will create compelling ad-content and the best offers to drive conversions.

4. Data Analysis

The brand awareness phase also helps us gather vital intelligence about your audience without burning your ad budget. We learn about who's interacting, where they are, what they're interested in and what they are engaging.

This means we can be laser targeted with your ad-spend.

2. Brand Awareness

You wouldn't propose to someone without getting to know them first! The same rules apply here. We spend 1-2 weeks connecting with your audience, telling your story, building trust and creating a buzz of excitement about your business with eye-popping thumb-stopping content.

5. Lead Generation

People are starting to know, like and trust you, and we are learning about who they are and what they value. We can now turn excitement into action by placing the right high value offer in the palm of their hand. The Cage.

Your sales team needs to be primed to convert as the leads begin to come in.

3. Campaign Build & Launch

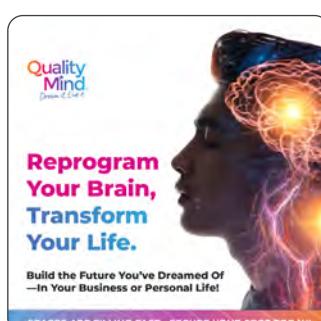

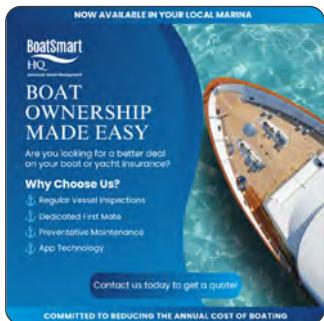

Once we have all the ad content and info we need, your bespoke campaign is built and launched within 5-7 days. This include Facebook and Instagram Ads, branded landing pages.

6. Audience Refinement & Double-Down

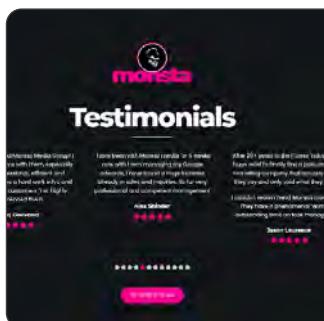

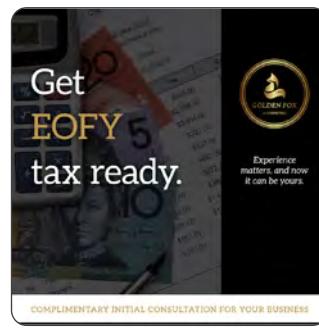

From here it's all about optimizing your audience and maximizing your investment; we re-analyse and refine your campaign around every 2 days to continually increase lead volume and quality, and double-down on your highest performing demographic to drive down your cost per lead.
